设计构想

爵士剧韵—公共厕所

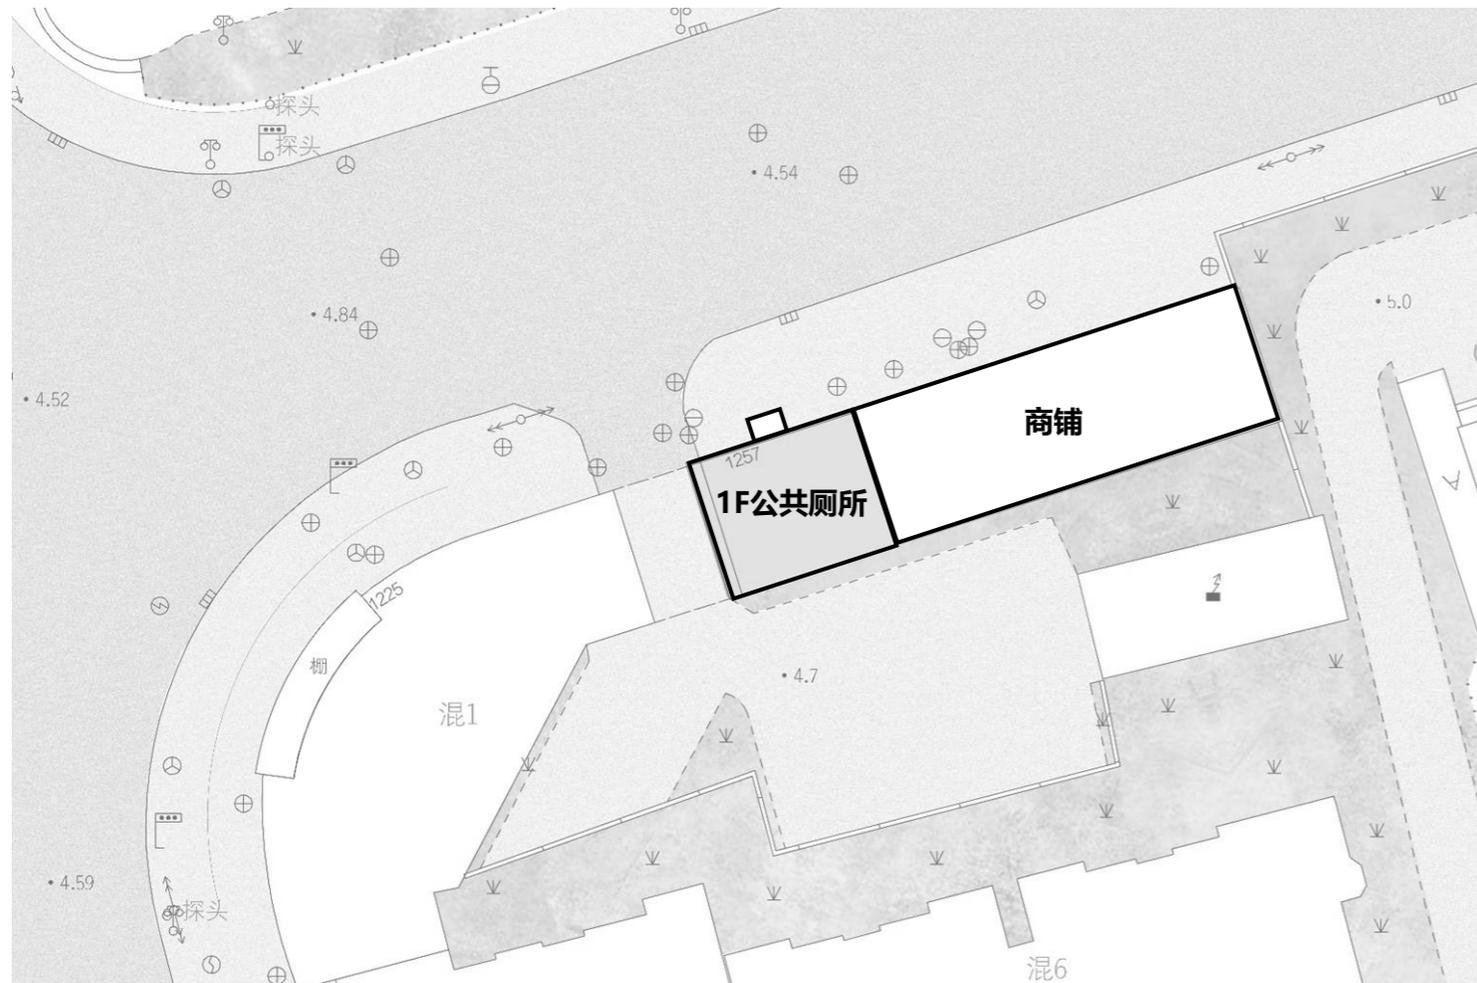

应古美路音乐戏剧主题街区的规划定位，本项目致力于将此处公共厕所打造为独具特色的“爵士剧韵”主题空间。设计巧妙融合爵士乐的即兴节奏与音乐剧的叙事张力，在视觉呈现上实现复古元素与现代风格的创意碰撞，营造出一个充满艺术氛围的独特公共场景。

In line with the planning and positioning of the Yinggumeilu Music and Theatre Theme District, this project aims to transform the public restroom here into a uniquely themed space called 'Jazz Theatre Rhythm.' The design ingeniously integrates the improvisational rhythm of jazz with the narrative tension of musicals, achieving a creative blend of vintage elements and modern styles in its visual presentation, creating a distinctive public setting full of artistic atmosphere.

◆ 爵士剧韵——爵启剧幕，音画相生

公厕外立面设计通过经典剧院符号与现代音乐意象的碰撞，塑造出独特形象。

设计提取百老汇经典店招、剧院休息座椅、花玻璃屏风、古铜色金属构件等代表性元素，与爵士乐蓝调色彩体系、音乐美陈及海报灯箱进行创意整合。不同时代的材质、色彩在此交织，最终以协调统一的设计语言完整诠释了“爵士剧韵”的空间主题。

The exterior design of the public restroom creates a unique image through the collision of classic theater symbols and modern musical imagery. The design extracts representative elements such as classic Broadway storefront signs, theater lounge seats, stained glass screens, and bronze-colored metal components, creatively integrating them with the jazz-blues color system, musical displays, and poster lightboxes. Materials and colors from different eras intertwine here, ultimately using a harmonious and unified design language to fully interpret the spatial theme of 'Jazz Theater Rhythm.'

设计细节

- 入口处以黑色与古铜色打造的百老汇经典店招，造型鲜明，色彩对比强烈，成为立面上极具吸引力的视觉焦点。
- 采用复古花玻璃屏风隔断，既是视觉焦点，也柔化了空间边界。
- 通过剧院风座椅、音乐美称及玻璃屏风等设计元素，营造虚实相生的美学效果，打造兼具休憩与打卡功能的街角节点。

The entrance features a Broadway-style classic signboard in black and antique bronze, with a distinctive shape and strong color contrast, becoming an eye-catching focal point on the façade. A vintage patterned glass partition is used, serving as both a visual highlight and a soft boundary for the space. Through design elements such as theater-style seating, musical titles, and glass partitions, an aesthetic effect of interplay between reality and illusion is created, forming a street corner hub that combines rest and photo-taking functions.

◆ 爵士剧韵——爵士启幕，音画相生

空间内部巧妙融合了剧院风格的压花玻璃、古铜色梳妆台，以及爵士乐经典照片与专辑海报等元素，通过材质与符号的并置碰撞，既呼应了外立面的设计语言，实现室内外视觉风格的完整统一。

The interior space cleverly integrates theater-style embossed glass, antique bronze dressing tables, as well as elements such as iconic jazz photographs and album posters. Through the juxtaposition and clash of materials and symbols, it not only echoes the design language of the exterior facade but also achieves a complete visual harmony between the interior and exterior.
